2006 LMR decided to add training to our existing coaching delivery. Lean training is traditionally applied through classroom training.

We wanted to keep it 'in brand' so it had to be 'hands-on'.

LMR did not want to conduct 'stand-up-training'.

LMR purchased Flair Models Limited - a £1.2m p.a. turnover manufacturing company based in Swindon.

As purchased

2007 LMR's coaches start Flair's journey to Lean showcase standard.

Flair Models invest in new equipment and implement efficient Lean processes.

Flair profit margin increases by 45%.

Lean showcase

2008 Flair Lean journey nears its end.

The university opens its doors.

The factory has been adapted to accept delegates from all industries to demonstrate Lean tools in a practical way. We have the ability to wind the facility back to a known poor condition and throughout the day the delegates implement Lean tools in stages taking the factory back to showcase standard

THE 5 DAY LEAN IMMERSION

Monday	Tuesday	Wednesday	Thursday	Friday
Introduction to Lean	5s & Visual Factory	Standardised Work Theory	Quick Changeover	Lean Leadership
7 Wastes	7 Wastes Lean Game (Exercise)	Standardised Work (Exercise)	Quick Changeover (Exercise)	5s & Standardised Work Audits
